- ✓ Achievers Equities Ltd shall periodically update all documents, data or information of all clients and beneficial owners collected under the CDD process

2. Policy for acceptance of clients:

The client acceptance policies and procedures of the Company aims to identify the types of clients that are likely to pose a higher than average risk of ML or TF. By establishing such policies and procedures, Achievers Equities Ltd will be in a better position to apply client due diligence on a risk sensitive basis depending on the type of client, business relationship or transaction. In a nutshell, the following safeguards will be followed while accepting the clients:

- ✓ No account is opened in a fictitious / benami name or on an anonymous basis.
- ✓ Factors of risk perception (in terms of monitoring suspicious transactions) of the client are clearly defined having regard to clients' location (registered office address, correspondence addresses and other addresses if applicable), nature of business activity, trading turnover etc. and manner of making payment for transactions undertaken. The parameters shall enable classification of clients into low, medium and high risk. Clients of special category (as given below) may, if necessary, be classified even higher. Such clients require higher degree of due diligence and regular update of Know Your Client (KYC) profile.
- ✓ Documentation requirements and other information to be collected in respect of different classes of clients depending on the perceived risk and having regard to the requirements of Rule 9 of the PML Rules, Directives and Circulars issued by SEBI from time to time.
- ✓ Ensure that an account is not opened where the Company is unable to apply appropriate CDD measures/ KYC policies. This shall apply in cases where it is not possible to ascertain the

identity of the client, or the information provided to the Company is suspected to be non-genuine, or there is perceived non-co-operation of the client in providing full and complete information. The Company shall not continue to do business with such a person and file a suspicious activity report. It shall also evaluate whether there is suspicious trading in determining whether to freeze or close the account. The Company shall be cautious to ensure that we do not return securities of money that may be from suspicious trades. However, the Company shall consult the relevant authorities in determining what action it shall take when it suspects suspicious trading.

- ✓ The circumstances under which the client is permitted to act on behalf of another person / entity shall be clearly laid down. It shall be specified in what manner the account shall be operated, transaction limits for the operation, additional authority required for transactions exceeding a specified quantity/value and other appropriate details. Further the rights and responsibilities of both the persons i.e. the agent-client registered with the Company, as well as the person on whose behalf the agent is acting shall be clearly laid down. Adequate verification of a person's authority to act on behalf of the client shall also be carried out.
- ✓ Necessary checks and balance to be put into place before opening an account so as to ensure that the identity of the client does not match with any person having known criminal background or is not banned in any other manner, whether in terms of criminal or civil proceedings by any enforcement agency worldwide
- ✓ The CDD process shall necessarily be revisited when there are suspicions of money laundering or financing of terrorism (ML/FT).

3. Risk-based Approach:

- ✓ It is generally recognized that certain clients may be of a higher or lower risk category depending on the circumstances such as the client's background, type of business relationship or transaction etc. As such, the Company shall apply each of the client due diligence measures on a risk sensitive basis. The basic principle enshrined in this approach is that Achievers Equities Ltd shall adopt an enhanced client due diligence process for higher risk categories of clients. Conversely, a simplified client due diligence process may be adopted for lower risk categories of clients. In line with the risk-based approach, the type and amount of identification information and documents that the Company shall obtain necessarily depend on the risk category of a particular client.
- ✓ Further, low risk provisions shall not apply when there are suspicions of ML/FT or when other factors give rise to a belief that the customer does not in fact pose a low risk
